## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Prior art of record does not teach or suggest the method of data transmission including the step of when a confirmation signal is not received in response to a function unit polling step, outputting a command signal to address the non-responsive function unit, selectively causing it to transmit data as claimed in claims 1, 9 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Examiner's Comment***

2. The examiner wishes to acknowledge the filing of a Preliminary Amendment amending the specification and claims 1 – 11.

### ***Pertinent Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the PTO-892 form show various prior art data systems in a vehicle that have "polling" functions.
